Minority Owned, Small Business

Core Competencies

Otter Solutions delivers custom software services to the federal government. We bring to bear fast, reliable, immediately productive applications from multiple disciplines to ensure Mission readiness and customer satisfaction. Utilizing customer focused Agile Software Development Life Cycle processes, we continuously strive to be a company that delivers. Our ultimate goal is to exceed expectations and make our customer's job easier, not more difficult. Otter Solutions specializes in Linux, Java, Python, Data Science, Machine Learning, Artificial Intelligence, and cloud technologies such as AWS.

Past Performance

We have successfully collaborated on contracts with L3Harris Technologies, serving clients such as the Department of Defense, U.S. Air Force, U.S. Army, and various Intelligence Agencies. Additionally, we worked on a Booz Allen Hamilton contract for the Department of Defense's Joint Artificial Intelligence Center (JAIC) and Chief Data Analytics Office (CDAO).

Differentiators

Our real point of difference is the ability to collaborate with customers and partners to provide custom software solutions for defence and intelligence applications.

- ◇ Experienced Software Engineer & Data Scientist
- ◇ Close relationships with the defence industry in ISR & Space Systems
